

## Welcome to the Giggle Planet:

Giggle Planet is a revolutionary platform that aims to combine the power of blockchain technology, non-fungible tokens (NFTs), and the Binance Smart Chain (BSC) to create a unique ecosystem for digital content creation and ownership. With the introduction of our native token, GPT Token, and the integration of NFTs based on horses, Giggle Planet opens up new possibilities for creators, investors, and enthusiasts in the digital realm.

## Overview of Giggle Planet

Giggle Planet is a decentralized platform designed to empower content creators and users by leveraging the benefits of blockchain technology. Through our ecosystem, users can create, trade, and own digital assets in the form of NFTs, with a particular focus on NFTs based on horse.

The Giggle Planet ecosystem is built on the Binance Smart Chain, which provides a secure and scalable infrastructure for fast and efficient transactions. By utilizing the BSC, we ensure a seamless experience for our users while benefiting from the growing Binance ecosystem.

## Giggle Planet Content Ecosystem

**Be A Horse Owner**

**Be A Stable Owner**

**Mating & Breeding**

Giggle Planet aims to create a dynamic ecosystem where users can participate in various gaming activities while leveraging the potential of blockchain technology and NFTs. By introducing unique and valuable digital assets in the form of NFT-based horses, Giggle Planet enables players to engage in thrilling horse racing events, breeding, and trading, all while experiencing the benefits of decentralized finance (DeFi).

### **NFT-Based Horse Racing**

Giggle Planet's flagship game, Horse Racing, revolutionizes the traditional horse racing experience by digitizing it into an NFT-based format. These NFT horses possess individual traits, characteristics, and performance statistics, making each one unique and valuable.

### **Horse Mating & Breeding**

Giggle Planet introduces an exciting feature for horse owners, allowing them to engage in horse mating and breeding. This feature enables the creation of new NFT horses with unique traits and characteristics, fostering a vibrant marketplace for horse trading and breeding.

### **Become A Stable Owner**

Giggle Planet provides an exclusive opportunity for users to become stable owners within the ecosystem. Stable owners can receive exciting rewards from horse owners for providing accommodation.

## Blockchain Gaming with NFT'S

The Giggle Planet ecosystem uses blockchain technology and NFTs to empower the players and creators. NFTs are an emerging segment in the global game market: virtual tokens for digital scarcity, security and authenticity. Each NFT is distinct and unique, it is indivisible and it is not interchangeable for another.

### Comparison of Fungible versus Non-fungible Tokens

<i>Fungible</i>	<i>Non-Fungible</i>
Fungible tokens are assets which are interchangeable and can be exchanged with another asset with the similar kind.	Non-Fungible tokens are unique assets that are not interchangeable and cannot be exchanged with another NFT of same kind.
Fungible tokens are divisible assets, meaning the item can be broken down into any number of units as long as the value remains same.	Non-Fungible tokens are non-divisible assets and they represent a whole entity and cannot be subdivided into multiple units.
Fungible tokens are uniform and they do not have unique value propositions like NFT's.	NFT have a unique value proposition and each token has unique ID.
Fungible tokens can be divided into smaller units. For eg. a \$100 bill can be exchanged with another \$100 or Two \$50 bills.	NFT cannot be divided but are one entire unit.

- A. **TRUE DIGITAL OWNERSHIP:** Gamers are the true and perpetual owners of their digital items, even if the game was shut down or abandoned. With blockchain, every game item can be tokenized, allowing gamers to decide how they want to trade or sell their items.
  
- B. **SECURITY AND IMMUTABILITY:** Digital game items can be easily tokenized and traded in primary and secondary markets that are managed and facilitated by blockchain technology. Items based on scarcity and demand usually invite fraud and theft, but these risks are minimized on blockchain because it is a distributed ledger.
  
- C. **TRADING:** Blockchain-based gaming platforms can provide users with ultimate control over their digital assets. They can buy and sell items freely without concern that they will be ripped off or that a platform will close and cancel all the value of their in-game items.
  
- D. **CROSS-APPLICATION INTEROPERABILITY:** Blockchain provides capacity for games to utilize shared assets. ASSETS and any other game elements can be used in other platforms that allow it. These are no longer confined by a narrow digital ecosystem.

## What is GPT? What is it used for?

### The GPT Token

The GPT Token is the native utility token of Giggle Planet. It serves as the fuel that powers various activities within the ecosystem, including purchasing NFTs, engaging in platform governance, and accessing premium features. GPT Tokens are built on the Binance Smart Chain, employing the BEP-20 token standard, which ensures compatibility and interoperability with other BSC-based tokens and decentralized applications (dApps).

### The GPT Token's primary functions include:

**Overview:** Giggle Planet is a groundbreaking platform that combines the emerging technology of NFTs with the timeless passion for horses. By tokenizing these majestic creatures as NFTs on the Binance Smart Chain, Giggle Planet aims to democratize horse ownership, enhance transparency, and create a vibrant marketplace for horse enthusiasts worldwide.

**Problem Statement:** Traditional horse ownership and trading have long been restricted to a select few due to high costs, limited accessibility, and lack of transparency. Moreover, the process of buying, selling, and tracking horse lineage often involves complex paperwork, middlemen, and disputes. Giggle Planet aims to overcome these challenges by harnessing the power of blockchain technology and NFTs.

## Giggle Planet Platform

Giggle Planet (GPT) is an innovative blockchain-based gaming platform that combines Non-Fungible Tokens (NFTs) with exciting gameplay experiences. Built on the Binance Smart Chain (BSC), Giggle Planet introduces Horse Racing, an immersive NFT-based horse racing game, offering players the opportunity to own and race virtual horses. In addition to horse racing, Giggle Planet has a diverse range of upcoming games such as casino games, lottery games, bullfight games, and options trading. The platform also offers users the chance to become stable owners and engage in horse mating, breeding, and racing, providing multiple avenues for profit and entertainment.

## Introduction

Giggle Planet aims to create a dynamic ecosystem where users can participate in various gaming activities while leveraging the potential of blockchain technology and NFTs. By introducing unique and valuable digital assets in the form of NFT-based horses, Giggle Planet enables players to engage in thrilling horse racing events, breeding, and trading, all while experiencing the benefits of decentralized finance (DeFi).

### NFT-Based Horse Racing

Giggle Planet's flagship game, Horse Racing, revolutionizes the traditional horse racing experience by digitizing it into an NFT-based format. The game features a total of 2,200 virtual horses, comprising 200 Stallion (male horses) and 2,000 Mare (female horses). These NFT horses possess individual traits, characteristics, and performance statistics, making each one unique and valuable.

## NFT Sale Phases

To ensure a fair distribution of the NFT horses, Giggle Planet has implemented a phased sale approach. The NFT Sale will be divided into four phases, each offering a different number of horses at varying prices:

Phase 1: 400 horses at GPT 2500

Phase 2: 400 horses at GPT 3500

Phase 3: 600 horses at GPT 5000

Phase 4: 800 horses at GPT 7500

After the initial sale phases, NFT horse owners have the option to resell their horses at a minimum price of GPT 1,0000 or based on the prevailing market rate.

## Horse Mating, Breeding, and Racing

Giggle Planet introduces an exciting feature for horse owners, allowing them to engage in horse mating and breeding. Stallion (Male horse) can mate up to 10 times per year, while Mare (female horse) can breed twice per year. This feature enables the creation of new NFT horses with unique traits and characteristics, fostering a vibrant marketplace for horse trading and breeding.

Furthermore, Giggle Planet offers exhilarating horse racing events for players to participate in and potentially earn rewards. Three types of horse races are available:

### HORSE RACING

EARN WITH FUN

#### **FAST N FURIOUS (DAILY RACE )**

**CHANCE TO EARN UP TO \$10 EVERY 10 MINUTES**

#### **ACE OF RACE (WEEKLY RACE )**

**CHANCE TO EARN UP TO \$100 TO \$20000**

#### **DOMINATOR DERBY LEAGUE (MONTHLY RACE )**

## Become a Stable Owner

Giggle Planet provides an exclusive opportunity for users to become stable owners within the ecosystem. A total of 100 stables are available for lease, with each lease lasting for 120 days and requiring a lease amount of GPT 1,0000. Each stable can accommodate up to 25 horses. Stable owners receive a daily payment of GPT 10 from horse owners for providing accommodation.

## Farming GPT Tokens

To incentivize participation and provide additional income streams, Giggle Planet offers users the opportunity to farm GPT tokens. The minimum investment for farming is 250 GPT and maximum up to 100,000 GPT. The returns on farming will be 0.36% daily up to 200%.

**Tokenization of Horses:** Giggle Planet enables the tokenization of horses, transforming them into unique NFTs on the Binance Smart Chain. Each horse NFT represents an individual horse and contains detailed information about its breed, lineage, performance history, and characteristics. Owners can easily transfer, trade, and showcase their horse NFTs, creating a transparent and efficient ecosystem for horse enthusiasts.

**The GPT Token:** The Giggle Planet Token (GPT) is the native utility token of the Giggle Planet platform. GPT Tokens facilitate various activities within the ecosystem, including the purchase and sale of horse NFTs, breeding services, marketplace fees, and community governance. GPT Tokens are built on the Binance Smart Chain (BSC), ensuring fast and cost-effective transactions for users.

## Benefits and Use Cases

**Accessibility and Fractional Ownership:** Giggle Planet brings horse ownership within reach of a wider audience. Through fractional ownership, individuals can invest in and co-own premium horse NFTs, spreading the costs and risks associated with horse ownership. This opens up new avenues for investment, allowing horse enthusiasts to diversify their portfolios and participate in the horse industry.

**Transparent Marketplace:** The Giggle Planet marketplace provides a transparent and secure platform for buying and selling horse NFTs. With all relevant information stored on the blockchain, users can verify the authenticity, lineage, and performance history of each horse NFT, minimizing the risk of fraudulent transactions and disputes.

**Breeding and Genetic Enhancement:** Giggle Planet facilitates breeding services, allowing horse owners to pair their NFTs and create offspring with unique genetic traits. Through smart contracts, breeding activities are governed by predefined rules, ensuring fairness and transparency. This feature promotes genetic diversity, improving the overall quality of the horse population on Giggle Planet.

**Community Engagement and Governance:** The Giggle Planet platform encourages active community participation and allows GPT Token holders to govern the platform's development and decision-making processes. Token holders can propose and vote on platform upgrades, changes to fee

structures, and other significant decisions, fostering a sense of ownership and empowerment among the community.

## Road Map

### Vision & Mission

**Initial Launch:** Giggle Planet is planning a phased launch, beginning with the deployment of the GPT Token on the Binance Smart Chain and the introduction of the marketplace for horse NFTs. Early adopters will have the opportunity to acquire and trade horse NFTs, and participate in the

### Development of the Platform.

**Platform Expansion:** In subsequent phases, Giggle Planet aims to expand its services and partnerships, bringing in additional features such as horse racing events, virtual competitions, and collaborations with other equine industry stakeholders. These expansions will further enhance the value proposition and ecosystem of Giggle Planet.

**NFT Marketplace:** Users can utilize GPT Tokens to buy, sell, and trade NFTs based on horse within the Giggle Planet marketplace. The marketplace provides a transparent and secure environment for creators and collectors to connect and engage in transactions.

**Platform Governance:** GPT Token holders have the ability to participate in the governance of Giggle Planet. Token holders can propose and vote on important decisions regarding platform upgrades, fee structures, and ecosystem developments.

**Staking and Rewards:** GPT Token holders can stake their tokens to earn passive income through staking rewards. These rewards incentivize long-term token holding and contribute to the stability and growth of the Giggle Planet ecosystem.

**Access to Premium Features:** Certain features and services within the Giggle Planet platform may require the holding or spending of GPT Tokens. These premium features provide additional benefits and enhance the overall user experience.

## NFTs based on Horse

One of the key innovations within the Giggle Planet ecosystem is the introduction of NFTs based on horse. These NFTs represent unique digital properties that can be bought, sold, and owned by users on the platform. Each NFT horse comes with distinct characteristics and attributes, making them highly desirable and collectible.

The ownership of an NFT horse grants various advantages, including:

**Virtual Real Estate:** NFT horse owners can explore and inhabit virtual worlds within the Giggle Planet metaverse, creating immersive and interactive experiences. These virtual worlds offer endless possibilities for customization, social interactions, and entertainment.

**Passive Income:** NFT horse owners can generate passive income by renting out their virtual properties to other users. This opens up opportunities for real estate investment and monetization within the Giggle Planet ecosystem.

**Exclusive Events and Rewards:** NFT horse owners gain access to exclusive events, rewards, and experiences within the platform. These privileges create a sense of prestige and recognition within the Giggle Planet community.

## Economy

### Tokenomics
